

Water-Repellant Preservative Treatment Formulations

Water Repellent Preservative Non-Pressure Treatment for Millwork Licensees

The Window & Door Manufacturers Association has received requests from Licensees under its Water-Repellent Preservative Treating Certification Program for approval of various water-repellent preservative formulations. Accordingly, for the benefit of these licensees, WDMA has reviewed tests of these formulations. These tests revealed that the following formulations meet the requirements of WDMA I.S.4, Industry Standard for Water-Repellent Preservative Treatment of Millwork, and are acceptable for use under the WDMA Water-Repellent Preservative Treatment Certification Program. This listing is not intended to be a complete list of formulations that conform to WDMA I.S.4, but rather, is a list of those formulations that have been submitted to WDMA for review. WDMA makes no claims as to the availability of any of the formulations listed.

Trade Name	Active Ingredient(s)	Manufacturer	In-Use Concentration
WOODLIFE F	02	Kop Coat, Inc.	0.50%
MILLTREAT F	02	Kop Coat, Inc.	0.50%
WATERBASED WOODLIFE 4:1 CONCENTRATE	02	Kop Coat, Inc.	0.50%
WATERBORNE MILLTREAT 5:1 CONCENTRATE	02	Kop Coat, Inc.	0.50%
WOODLIFE 111	02, 04, 05	Kop Coat, Inc.	0.21%, 0.21%, 0.21%
WOODLIFE 3	02, 04, 05	Kop Coat, Inc.	0.10%, 0.10%, 0.10%
